

## Iglesia Morava en Cuba

Havana, May 25th, 2024

## Message from Bishop Armando Rusindo:

My beloved brothers and sisters of the Moravian Church in Cuba, we must not overlook that on a day like today, May 25, in 1997, when we were still a very small group of aspiring to establish this ancient Church in our country, made the decision to declare this day as the date of the beginning of the founding work of the Moravian Church in Cuba.

27 years have passed full of history in which there have been many tasks and goals at each step of the way and multiple challenges have had to be faced, and in which important achievements have been achieved and the goal has been raised ever higher. Moravian standard in Cuban land.

All this above all because EBENEZER! The Lord has helped us up to this point but also to the passion and dedication of many brothers and sisters who have put their talents, efforts and sacrifices at the service of this work and of all those from other lands who, feeling united to this Church in their hearts, they have extended their fraternal hands to us.

Let us praise the Lord, let us congratulate ourselves for the beautiful pages that have been written by the efforts of each and everyone, and let us hope that by continuing forward with that tireless enthusiasm and dedication that have distinguished these 27 years, the Moravian Church in Cuba will shine even more. In his work for the glory of the Lamb who has conquered.

Armando Rusindo, bishop
