## Dzaleka in need – Light of Hope school fights for survival

The withdrawal of the UNHCR is hitting the Dzaleka refugee camp in Malawi hard – and directly affecting the Light of Hope school, which is jointly run by the Moravian Church Malawi, MOHDEVS and the Herrnhuter Missionshilfe. The background to this crisis is the drastic cuts in US funding for UN organisations under the Trump administration.

The UNHCR also lost important funds at that time – with devastating consequences that continue to this day. More than 70,000 refugees now live in the camp. The situation is dramatic: there is a lack of food, clean water, shelter and medical care. Amidst this emergency, the school is a place of hope. Over 1,000 children receive education, a warm meal and a sense of security here. 'The school is more than a place of learning – it is hope in the midst of crisis,' says a local teacher. Please help ensure that Dzaleka is not forgotten – by sharing this situation and raising awareness.

## "Mwangaza Academy" opens in Zanzibar

On 1 August, the Mwangaza Academy opened its doors in Kiboje, Zanzibar. The new inclusive nursery school is an important step for the region: here, children with and without disabilities have the opportunity to play, learn and grow up together from the very beginning. Shortly after opening, the facility is already very well attended. This is thanks to barrier-free rooms, adapted learning materials, individual

support from a special needs teacher and accompanying counselling for parents. The construction of the kindergarten was made possible with the support of the Fly & Help Foundation. The Mwangaza Academy is a special place that promotes equal opportunities and early childhood education in a sustainable way.

## Malnutrition programme in Zambia

Together with Edger Teacher, Country Director in Tanzania, Bettina Nasgowitz, a representative of the Herrnhut Mission Aid, visited the Moravian Church's health project in Zambia. In 2024, thanks to the support of numerous donors, a nutrition programme for children under the age of five was launched.

More than 3,000 children received medical care and their mothers were given training on

healthy nutrition. Trained health workers accompany the families, provide vaccinations and regular check-ups. However, the need remains great. Many mothers bear the responsibility alone, while numerous families live in precarious conditions. Often, there is a lack of food, income and support in everyday life. The programme therefore offers not only medical assistance, but also guidance and hope for the future.

## Short film about the Sternberg Kindergarten

The Rehabilitation Centre of the worldwide Moravian Church on the Star Mountain (Palestine/West Bank) is promoting its international, inclusive and interfaith kindergarten, which has been housed in new premises for several years, with a 120-second video on Facebook. See [here](#). The film presents the friendly interior and the spacious outdoor

area. It familiarises viewers with elements of the daily programme. It shows how children with disabilities are supported and how children of very different ages and backgrounds interact with each other. 'Discover a world of play, learning, support and community' is the title of the short film. The Star Mountain Rehabilitation Centre is located on an 800-metre-high green hill in the north of the rapidly growing city of Ramallah, directly on the main road connecting Ramallah to the university town of Birzeit.

## Pastors in Rukwa Province learn about cross-border mission

93 pastors from the Moravian Church in Tanzania's Rukwa Province recently took part in

a seminar on 'Cross-Border Mission.' Janica and Mads Jakobsen from the Moravian Church's mission organisation in Denmark reported on this in their latest newsletter. The pastors were encouraged to also reach out to refugees and migrant workers, not least the Chinese, who are involved in many large construction projects in Tanzania. Africa is the continent with the highest

percentage of Christians in the world, while Asia has the lowest percentage. This presents a challenge for Africans. A cross-cultural mission also belongs in large African cities. The seminar, which used various games and simulations, was led by Richard and Louisa Evans from All Nations Christian College north of London. More [here](#).

## Rachel-Juliana Matthew Lwali has passed away in Tanzania

We are grateful for every day of her life and for everything she did for girls, women and the

Moravian Church. We know that she is resting in peace with her Saviour. Please keep her family and all those who mourn her death in your thoughts. Rachel Lwali was also a member of the Council of the Teofilo Kisanji University of the Moravian Church in Mbeya in Tanzania's South-Western Province and represented the Moravian Church in Tanzania at many conferences at home and abroad. She had a degree in Banking and Financial Support Services and worked for 30 years in a Tanzanian bank. She is survived by seven children and many grandchildren. See [here](#).

be in your mailbox this week! The report highlights our successes over the past year, but above all reflects our preparations for the future. ## The 'Herrnhut Month' in Suriname in August 2025

On 10 August 2025, a festival for all children attending Sunday school in the congregation was held in the indoor facilities and large outdoor grounds of the Moravian Church's youth centre in Paramaribo, Suriname, as part of the annual 'Herrnhut Month' in August. The theme was 'You will be my witnesses.' See [here](#). The festival commemorated the children's revival in the old Herrnhut on 17 August 1727.

The children of the 'Friedrich Stahelin School' also celebrated their annual children's festival on this Sunday in the wooden 'Große Stadtkirche' (Great City Church) in Paramaribo. Pictures [here](#), several videos [here](#). The best children from the various schools of the Moravian Church were awarded prizes and honoured with flowers for their achievements during the last school term. See [here](#). The Olympiad has been organised since 2013 by the Surinamese Association of Mathematics and

Arithmetic Teachers and consists of several qualifying rounds. Last year, around 1,700 pupils took part in the first round and 89 of them reached the final round. As part of the school foundation's annual career discovery days, young people from the Adolf Theodor Pengelschool in Bersaba visited the technical facilities of the Surinamese water supply company SWM. See [here](#). Before the visit, no one wanted to pursue a career in water management, but afterwards many of the young people said they could imagine working for SWM.

## Hesli Pansa steps down as head of the City Mission in Paramaribo

On 18 August 2025, Hesli Pansa announced on Facebook that he was stepping down as head of the City Mission of the Moravian Church in Paramaribo, Suriname, the most important institution of the Moravian Church in the country, which was founded 156 years ago and is active in a wide range of evangelical and social welfare work. See [here](#). He writes: "Ecclesiastes

3 makes it clear to us: Everything has its time. There is a time to come and a time to go. My time to go has now come. After several years of working in God's vineyard, the City Mission, God has now called me to serve elsewhere. This step was not easy, but I am taking it after prayer and fasting. It has been a joy to serve you as head of the City Mission. In my work, I have come to know God as a God who never changes in his faithfulness. To you, my dear brothers and sisters, I would like to say that we Christians are to be salt and light in the world. I wish you God's rich blessings." A video showing Hesli Pansa recently giving a sermon can be found [here](#).

## Project for school starters in Nieuw Aurora

Getting children ready for primary school is a priority in many villages in the vast tropical interior of Suriname. Primary school lessons in Suriname are taught in Dutch. However, this is not usually the mother tongue of the young children. Most of the children grew up speaking Sranan. With the support of the Zeister Zendingsgenootschap, the Dutch sister organisation of the Herrnhuter Missionshilfe, a

preschool education project has therefore been running for ten years – and is now starting again for eight children – in the village of Nieuw Aurora on the Suriname River, led by local teachers Shirley and Persis. A picture can be found [here](#). A short video can be found [here](#). Nieuw Aurora has a small airstrip in the rainforest,

otherwise the village is only accessible by boat on the river. Around 2,000 people live here, most of whom belong to the Saramaccan people.

## Portrait of Herman Jintie, Director of the Medical Mission in Suriname

The Dutch platform Dutch Health Hub recently featured Herman Jintie, who has been head of the Medical Mission in Suriname (Medische Zending – Primary Health Care) since 2019, on its website. For more than 250 years, this organisation has been providing reliable healthcare in remote villages in the tropical interior of Suriname with 52 ambulances. Two groups of people live here: the indigenous inhabitants and the Maroons (i.e. the descendants of escaped African slaves). Herman Jintie comes from Commewijne, not far from Paramaribo. His parents were simple farmers. He actually wanted to become an economist, but had to drop out of university due to a lack of money. A friend advised him to work in healthcare. While still in training, he worked at the psychiatric centre in Suriname and then rose through the ranks to his current position as director. You can find out more about him and the organisation he heads [here](#).

The word SCUBA is an acronym for Self-Contained Underwater Breathing Apparatus. See [here](#).

## Pilgrimage to the pilgrimage church in Aglona, Latvia

On Assumption Day, 15 August 2025, several children and teachers from the Christian David School in Barkava, Latvia, made a pilgrimage in glorious summer weather to Aglona, an important place of pilgrimage in Latgale. There stands a huge Baroque pilgrimage church with a much older icon of the Virgin Mary ('Our Lady of Aglona'), which attracts around 300,000 pilgrims every year. In August 1941, the SS unit 'Rollkommando Hamann' murdered 269 men, 227 women and 48 children in Aglona. A series of photos on Facebook shows how the pilgrims approach their destination. See [here](#): "We begin with a prayer. We have tents, sleeping bags, pots, food, guitars, etc. with us. On the way, we visit churches. A moment for prayer. A warm dinner is being prepared. Mmm, mmm. The dishes need to be washed. A moment of praise. Aglona in the distance. Meeting with another group. At the bell tower. The destination is near. We're here. In the evening, the Way

of the Cross."
